31 December 1963

MEMORANDUM FOR: Assistant for Administration

ATTENTION: Chief, Logistics Branch

SUBJECT: Installation [REDACTED]

25X1A

REFERENCE: [REDACTED]

25X1A

1. The fourth [REDACTED] Stereocomparator is scheduled for delivery about 1 February 1964 for installation [REDACTED]. The contract presently calls for installation and checkout of the electronics in [REDACTED] and then dismantling for shipment. Since the unit goes directly on-line with the computer and the teletype output is here in the NPIC, it is not considered adequate to perform the installation checkout [REDACTED]. It is not necessary to install the electronics to check out the stereocomparator prior to shipment.

2. [REDACTED] was contacted as to their willingness to perform the installation and checkout here [REDACTED]. They have indicated they would do so if we would pay the difference in air fare which comes to [REDACTED] per person. Therefore, it is recommended that the contract be amended to provide for the difference in air fare (approximately [REDACTED] for two engineers to accomplish the installation [REDACTED]).
